

K1 Directivity Pattern

The diagrams below show the horizontal dispersion angle of the **K1** speaker at different frequencies. These plots are generated using lines of equal sound pressure.

Gray: -6 dB

Black: -12 dB

With the horn set to 90°, as shown below:

K1 Frequency Response Curve

The chart below shows the frequency response curve of the **K1** speaker.

Frequency Response (-3 dB): 180 Hz – 16 kHz

Maximum SPL (@1 m):

LF: 131 dB

HF: 132 dB
