

RL3 Directivity Pattern

The diagrams below show the horizontal dispersion angle of the **RL3** speaker at different frequencies. These plots are generated using lines of equal sound pressure.

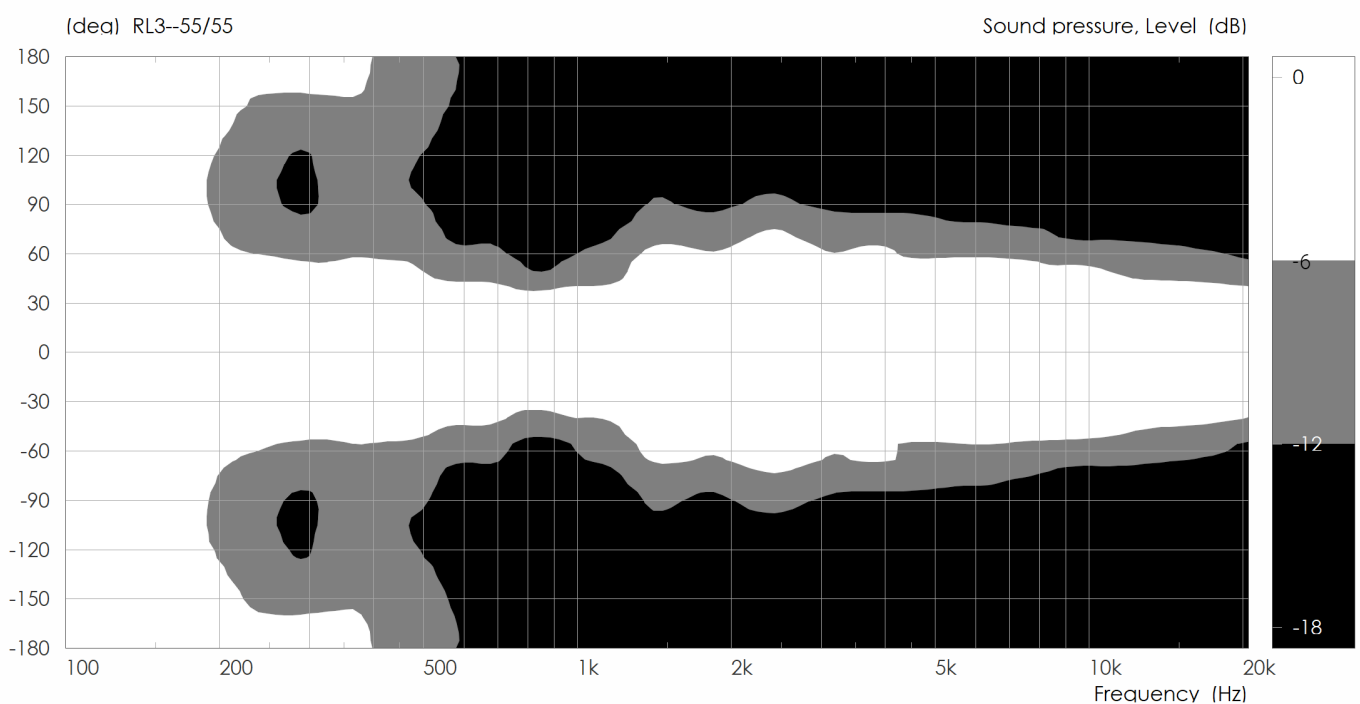

Gray: -6 dB

Black: -12 dB

With the horn set to 90°, as shown below:

With the horn set to 110°, as shown below:

RL3 Frequency Response Curve

The chart below shows the frequency response curve of the **RL3** speaker.

Frequency Response (-5 dB): 55 Hz – 20 kHz

Maximum SPL (@1 m): 142 dB
