

RX12 Directivity Pattern

The diagrams below show the horizontal dispersion angle of the **RX12** speaker at different frequencies. These plots are generated using lines of equal sound pressure.

Gray: -6 dB

Black: -12 dB

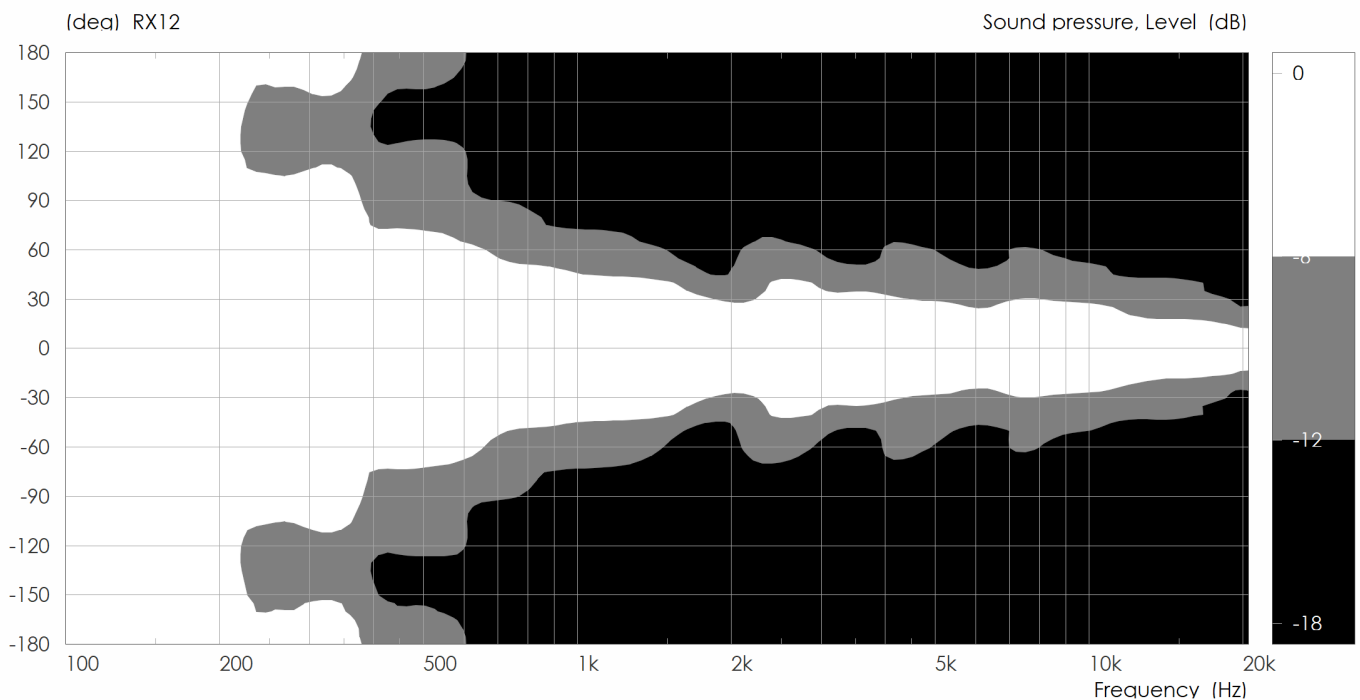

With the horn set to 75°, as shown below:

The diagrams below show the vertical dispersion angle of the **RX12** speaker at different frequencies. These plots are generated using lines of equal sound pressure.

Gray: -6 dB

Black: -12 dB

RX12 Frequency Response Curve

The chart below shows the frequency response curve of the **RX12** speaker.

Frequency Response (-5 dB): 68 Hz – 19 kHz

Maximum SPL (@1 m): 141 dB
